President’s Message

What a privilege it was for me to represent ALTA at the recent International Dyslexia Association meeting in Chicago! ALTA members were participating in every way possible as we celebrated IDA’s 50th anniversary. It was a very special time to reflect on our professional heritage and to honor the pioneers in the field of dyslexia. It was also a time to recognize our accomplishments and to consider our future.

Barbara Fox, ALTA’s immediate past president, and I had the unique opportunity of presenting a joint session on Saturday afternoon with the Orton-Gillingham Academy (OGA) and the International Multisensory Structured Language Education Council (IMSLEC). Presidents Helaine Schupack and Joyce Pickering represented OGA and IMSLEC. ALTA and OGA are professional organizations that certify the individual practitioner and IMSLEC accredits multisensory training courses much like our ALTA Centers Council. Each professional organization presented their certification and accreditation process with a very clear message of the importance of standards of excellence for the preparation of therapists and teachers in the field of dyslexia. Barbara and I presented with great pride the requirements of active student, and qualified instructor membership in ALTA. We know only too well the commitment that is required to become a CALT! The interest in establishing professional standards for educators has become a priority for IDA and ALTA has the opportunity to participate in the establishment of the guidelines.

The ALTA Centers Council met at IDA and elected new officers for the 2000-2002 term. Congratulations to

ALTA Spelling Bee

By Elizabeth Kennedy, Spelling Bee Coordinator

The ALTA Spelling Bee Committee members are hard at work to insure that the ALTA Spelling Bee to be held January 22, 2000 will be a success. Registration forms are being processed and placed into the database by Anita Bruck. Volunteers for the day of the Bee are being lined-up by Pauline Hartley and Carolyn Nesbitt. Karyl Gindling is preparing the information packets to be sent to therapists who have entered students in the Bee.

Rae Cromeens is preparing the word lists. Linda Sullivan will be handling the awards to be presented the day of the Bee. Ginny McCrea and Mary Ann Webster are in charge of refreshments for volunteers during the event. Suzanne Cecil will serve as judge.

Volunteers are needed to serve as word callers and scorekeepers. If you can serve in one of these capacities on January 22, please call Pauline Hartley at (817)232-2880 or Carolyn Nesbitt at (214)363-1382.

By Sherry Warren, Spring Conference Chair

Make plans to attend the ALTA Spring Conference on April 1, 2000 at Texas Scottish Rite Hospital. Our speaker, Ms. Earlyne Hastings, will address the topic of phonological awareness in a presentation entitled: “Phonological Awareness: What You Should Know; What You Can Do.”

Earlyne Hastings is a special education teacher who has taught young students with learning disabilities for over twenty years. She holds a bachelor’s degree in elementary education, master’s degrees in early childhood education and in learning disabilities. She is a Ph.D. candidate in special education at Syracuse University, where she has studied with Dr. Benita Blachman. Her research interests include phonological awareness and interactive computer technology.

Ms. Hastings co-authored and taught, with Dr. Darlene Tangel, a training module on phonological awareness and early reading intervention for the Educational Research and Dissemination Program of the American Federation of Teachers. Ms. Hastings has also presented at numerous workshops on phonological awareness and early reading intervention. She has been an adjunct instructor at Syracuse University, teaching graduate courses on learning disabilities and language processing disorders.
President's Message continued from front cover

Valerie Tucker, the Council’s new president and all the officers and committee members who have accepted a leadership role on the Council. The Centers Council is the accrediting body of our organization that ensures the highest level of study and preparation to become a Certified Academic Language Therapist. Valerie and I will be working together to strengthen the role of ALTA and the ALTA Centers Council.

Saturday, November 13, the long-range planning committee met to define our organization’s future goals and prioritize our plans. Representatives from Arizona, Oklahoma and Texas admittedly had a lot of fun, but also worked hard to outline our future plans. Clearly, there is much work to be done and many ALTA members needed to make our plans a reality. When you are asked to participate in some aspect of our organization, I hope you respond with a resounding, “Yes!”

When I consider the high standards of preparation to be a CALT I am reminded of a quotation from the “Grand Dame of Dyslexia,” Margaret Rawson, who said, “It takes a long time and a rigorous curriculum to make a competent therapist.” It takes that and more! I urge you to remember the importance of using your title of Certified Academic Language Therapist that you have worked so hard to earn. ALTA’s goal is for everyone to understand the significance of the title.

Have you been to ALTAread.org, yet? Well, please, go there. You’ll be pleased. You’ll be informed. Besides, you’ll have no idea what we’re talking about here, if you don’t.

What’s new to talk about on the web? Let’s see. In past issues of The Bulletin we’ve discussed how to get to ALTAread.org. We’ve discussed using member number and password, and what to do if we’ve forgotten it. We’ve discussed many of the professional growth possibilities of the web site: the legislative reviews, the Find-a-Therapist section, the book reviews, and all. Now, let’s discuss the fun parts.

When you access the Members Only area of the site (using your member number and password), you will find the Members Discussion Group. It’s not an online conversation; it is a new-fashioned bulletin board. So far, we’ve had postings congratulating ALTA on the web site (thank you, very much), posts about CEU’s, and posts thanking web site volunteers, among others. What about posting your concerns about practice issues or your pet peeves? Would you share games and strategies that have worked for you? The Members Discussion Group on ALTAread.org is the place. Do you have a therapy anecdote to share? I suppose you have all heard about the child doing the alphabet part of the lesson who appeared very perplexed after touching and naming each letter. When asked what was concerning him, he said, “Where is the elemeno?” The letters l, m, n, and o, that is. Share the highs and lows of language therapy with colleagues. Go ahead, vent!

We have questions about using the links to Amazon.com, an online bookstore. We hope to revise that part of the site to make it simpler to use soon. For now, though, click on any book title in the Book Reviews section to go directly to Amazon.com. You are not committing yourself to purchasing the book by doing that. If you do purchase the reviewed book directly after entering the Amazon.com site, ALTA will receive 15% of the book price. If you do not want to purchase that book, you can remove it from your order sheet at any time. When you make a purchase of something else, ALTA will receive 5% of your total order. Try to order your holiday gift books in this manner. It’s a fact: CALT’s buy TONS of books. When you buy your books using the Amazon.com link, you will be helping ALTAread.org with operating expenses. For holiday gift giving, please remember that Amazon.com is also a place to buy music and videos. ALTA will receive 5% if you purchase anything by going to ALTAread.org first. Then, go to Amazon.com by clicking a book title on our site. You have lots of opportunities to remove any item from your Amazon.com shopping basket before your order is final.

Have you taken the Members Survey? We’d like to get your responses before we change the questions again.

Speaking of questions, we love questions. When you click the Contact Us button, you really are contacting us, Anita Bruck and Kathie Mennel. Anita, an ALTA member, is the ALTA admin. She receives your comments and forwards them to the Online Helpline/ Hopeline volunteers, to the CEU Chairperson, to the VP Membership, to the Executive Secretary, to whomever can best answer your e-mail. Kathie reports on web issues to the ALTA Board of Directors. We’re looking for ways to make the web site more useful to you. Please use the Contact Us button. We hope to hear from ALTA members often.

Refer your students and their families and your adult clients to ALTAread.org. The Legislative and Resources areas can provide answers to many concerns. ALTAread.org will give visitors to the site a more complete idea of who a Certified Academic Language Therapist is and the specialized skills a CALT can bring to the learning situation.

See you on the web. ALTAread.org.

Executive Director: Margaret T. Smith
Director of Teacher Training: Dolores H. Teasley
Supervisor of Practicum: Edith A. Hogan
Assistant Director of Teacher Training: Janna S. Curry
Staff members: Angela Parker, Christine Bedenbaugh, Tomye Adair, Paula Wilson

Before EDMAR was founded in 1982 by Margaret T. Smith and Edith A. Hogan, the only teacher training facilities available in Texas were located in Dallas, Houston, and Lubbock. Margaret worked with Aylett Cox as Associate Director of Dean Learning Center Teacher Training for 6-1/2 years; Edith joined the staff there in 1980. The birth of EDMAR came about because Edith and Margaret perceived a need was not being addressed at that time: to provide on-site teacher training for public schools.

Prior to the publication of Multisensory Teaching Approach (MTA) EDMAR started with a four-week introductory course. EDMAR is now able to prepare participants to begin implementing the Multisensory Teaching Approach (MTA) in two weeks, rather than four, because the MTA curriculum is written in such great detail. The two week Introduction to MTA course focuses on early curriculum, teaching techniques, lesson planning, class management, and how to individualize instruction and practice. Those registering for the academic language therapy course will begin working under close supervision almost immediately, in the form of demonstration lessons. Additional workshops and seminars require two to three years to complete. The curriculum follows the Alphabetic Phonics introduction sequence, but has been expanded to include a phoneme awareness program and a guide for teaching a process for comprehension and composition. MTA has been adopted by numerous public and private schools in Texas, the United States, and in some foreign countries. The program includes complete, scripted directions for teaching graphemes and concepts, reading and spelling practice materials, teaching guides for handwriting and alphabet and dictionary skills, as well as classroom teaching aids. MTA is noted for the detailed management system, which includes student records for all practice activities and mastery checks.

EDMAR also provides workshops for Multisensory Teaching System for Reading, designed for inclusion in regular pre-K through 2nd grade classrooms, to be used with regular instructional programs. MTS addresses the newest requirements for English Language Arts in the Texas
